

The Garden Club of Coral Springs, Inc.

Gardenfest Coral Springs at Riverside Park

February 18~19, 2012

Sponsorship Opportunity

The Garden Club of Coral Springs, Inc. is an all volunteer, non profit, educational, environmental and community involved organization. Our main focus is educating our youth and our peers about organic food and recyclable materials, native and drought tolerant plants and the pure joy of gardening. Each year we present The Future Steward of the Environment Award and Scholarship to a deserving High School Graduate majoring in horticulture, landscape architecture, environmental science or a related subject.

Gardenfest Coral Springs will feature local growers and companies dedicated to the gardener, homeowner and anyone who enjoys being out of doors in beautiful South Florida!

Gardenfest Coral Springs will provide opportunities for growers, nurseries and plant societies to market their plants and services and for environmentalists to educate the public on water wise landscaping, conservation, xeriscaping, good planting practices "right plant right place". We will have good food and fun children's activities.
